Minecraft Trouble shooting sheet

Good Morning parents and students, here is a list of the known issues that I have come across with the Minecraft Education edition.

- 1) Ensure the latest edition is loaded onto your computers 😊.
- 2) I just found out this morning that I have to “actively host” at a particular time and date. Every time that I host, I have to send out a new code to the class. Once I turn off my computer, or log off of Minecraft the hosting of Pelly Nixon’s world stops and everyone loses their connection to “Pelly Nixon’s” world.
- 3) Students can create and host their own worlds, they’d have to send out invitations, to classmates. To do so they’d have to send the request to parents e-mails with a code to join because student emails are not activated on the system.
- 4) I will host “Pelly Nixon’s world” every Wednesday from 1:00 to 2:30 and I will send out hosing codes via parents e-mails every Wednesdays between 12-1pm. We will start at 1pm.
- 5) Have you have to create your own account by downloading the software? You will need it installed to access Pelly Nixon’s world: <https://education.minecraft.net/get-started/download/>
- 6) How to join your teachers world: <https://www.youtube.com/watch?v=vthE4rBSzrc>
